ADMISSION PROCESS

The RR Institutions Admission Center facilitates the admission process of the prospective students by offering them necessary counseling and career guidance to help them select the right programme and the professional assistance they require. RRI's Center for Admission conducts selection rounds for admissions from time to time during the year at the Campus as well as at different regional centers within the country. The Center guides and helps students in processing their applications for the admission in the institute. An important aspect of RR Institutions is to include culturally diverse student population. RR Institutions strongly believes that students from all over India as well as other countries, who represent a broad spectrum of diversified cultural and economic environments, develop communal harmony and add to rich learning experience. Hence, the selection process is carefully designed to take account of this aspect. Each applicant is objectively and critically assessed by the selection committee, which is constituted of technical and HR experts, on the basis of the student's academic accomplishments, analytical, communication and presentation capabilities. Admissions are finalized only after completing all the formalities and submission of required documents.
